

Design

Instructions:

- ① A square with a dashed diagonal line from the top-left to the bottom-right. A curved arrow indicates a clockwise fold along this diagonal.
- ② A right-angled triangle with a dashed vertical line from the top vertex to the hypotenuse. A curved arrow indicates a clockwise fold along this line.
- ③ A smaller right-angled triangle with a dashed vertical line from the top vertex to the hypotenuse. A curved arrow indicates a clockwise fold along this line.
- ④ A very small right-angled triangle with a dashed vertical line from the top vertex to the hypotenuse. A curved arrow indicates a clockwise fold along this line.
- ⑤ A tiny right-angled triangle with a dashed vertical line from the top vertex to the hypotenuse. A curved arrow indicates a clockwise fold along this line.
- ⑥ A pair of scissors cutting a small piece from the folded triangle.
