

Design

Instructions:

- ① A square with a dashed diagonal line from the top-left to the bottom-right. A shaded triangular section is drawn in the top-right corner, with a curved arrow indicating a clockwise rotation.
- ② A right-angled triangle with a dashed diagonal line from the top-left to the bottom-right. A shaded triangular section is drawn in the top-right corner, with a curved arrow indicating a clockwise rotation.
- ③ An inverted right-angled triangle with a dashed diagonal line from the top-left to the bottom-right. A shaded triangular section is drawn in the top-right corner.
- ④ A right-angled triangle with a dashed diagonal line from the top-left to the bottom-right. A shaded triangular section is drawn in the top-right corner, with a curved arrow indicating a clockwise rotation.
- ⑤ A right-angled triangle with a dashed diagonal line from the top-left to the bottom-right. A shaded triangular section is drawn in the top-right corner, with a curved arrow indicating a clockwise rotation.
- ⑥ A pair of scissors cutting along the outer edge of a shaded triangular section.
